PROFESSIONAL SUMMARY

Full-Stack Developer | MERN | TypeScript | AWS | PostgreSQL | Open Source Contributor | Freelancer

Results-driven Full-Stack Developer with 3+ years of experience in building scalable, high-performance web applications. Proficient in React.js, Next.js, Node.js, TypeScript, and PostgreSQL, with expertise in MongoDB, Docker, and AWS services. Skilled in performance optimization, API development, and cloud deployment, ensuring robust and efficient solutions. Actively contributing to open-source projects like p5.js-web-editor and AOSSIE EduAid. Passionate about problem-solving, system architecture, and creating seamless user experiences. Adept at working in agile teams, collaborating to deliver innovative and well-architected applications.

EDUCATION

• Sarvajanik College Of Engineering And Technology, Surat

2022 - Present

B.Tech, Computer Engineering

CPI: 8.5

• SD School of Science, Surat

2020 -2022

State Board of Secondary Education

Intermediate: 85% Matriculation: 90.4%

PERSONAL PROJECTS

• Medium

Developed a Medium-like blogging platform with a focus on scalability, performance, and developer experience.

- Build a modular front-end using React.js, Typescript and Tailwind CSS for a seamless and responsive UI.
- Optimized API Performance with Edge function and cloudflare
- Integrate authentication & authorization using JWT and OAuth, ensuring secure access control for users.
- Implemented a robust backend with PostgreSQL, Prisma ORM and Cloudflare workers, ensuring low latency , serverless execution.

• Blog application | Source Code

Developed a web platform for a friend to showcase artworks, receive ratings and feedback, and manage posts.

- Built a responsive, interactive UI with React and Tailwind CSS, using React Router DOM for seamless navigation.
- Implemented Appwrite for backend tasks like authentication, post management, and image storage.
- Ensured scalable and efficient state management with Redux Toolkit for smooth performance.
- Integrated ReactQuill to enable rich text editing for enhanced content creation.

• Real-Time Chat App

Developed a Real-Time Chat App where user can chat one to one or in a group by creating a private room.

- Designed a responsive and cross-browser-compatible UI using React.js, focusing on user experience and accessibility.
- Built a scalable backend with Node.js and Express.js, integrating RESTful APIs for efficient communication.
- Implemented real-time communication using Web Sockets which provide quick bi-directional communication.

TECHNICAL SKILLS and INTERESTS

Languages: Java, Python3, JavaScript (ES6+), HTML5, CSS3, SASS, LESS

Developer Tools: Visual Studio Code, Git, Webpack, Docker

Frameworks: React.js, Tailwind CSS, Node.js, Express.js, TensorFlow, Flask

Cloud/Databases: MongoDB, MySQL, Postgres SQL, AWS, Firebase, Cloudflare

Soft Skills: Collaboration, Communication, Problem-Solving, Attention to Detail, Quick Learner

Additional Skills: RESTful API Integration, Accessibility Standards, SEO Principles, Performance Optimization, Cross-Browser Compatibility

Coursework: Completed courses in Data Structures and Algorithms, Object-Oriented Programming, Operating System, Machine Learning, Web Development, Computer Networks and Internet Protocol, Cloud Computing

Areas of Interest: Competitive Programming, Web Development, UI/UX Design

ACHIEVEMENTS

• NASA Space app challenge '24 Team Leader

• Codeher by Walmart Certified for completing Round 1, showcasing skills in problem-solving.

• Solved 100+ problems on LeetCode

Portfolio: [@HK](#)
